The Wedding DJ

Wedding DJ in Bristol, Somerset & Beyond

Nick Burrett - A full time professional wedding DJ, I have provided music and entertainment to hundreds of wedding receptions around Bristol, Somerset and the South West. I have over 20 years' experience at your disposal to ensure your event runs in a smooth and seamless manner.

I specialise in reading the crowd and playing the right tunes at the right time to keep people on the dance floor. Don't leave it to chance – book a DJ who understands what is required to get people dancing and make an enjoyable evening.

I always perform myself and don't subcontract my events to other DJs, so you can be assured you'll receive my 5-star service at your event.

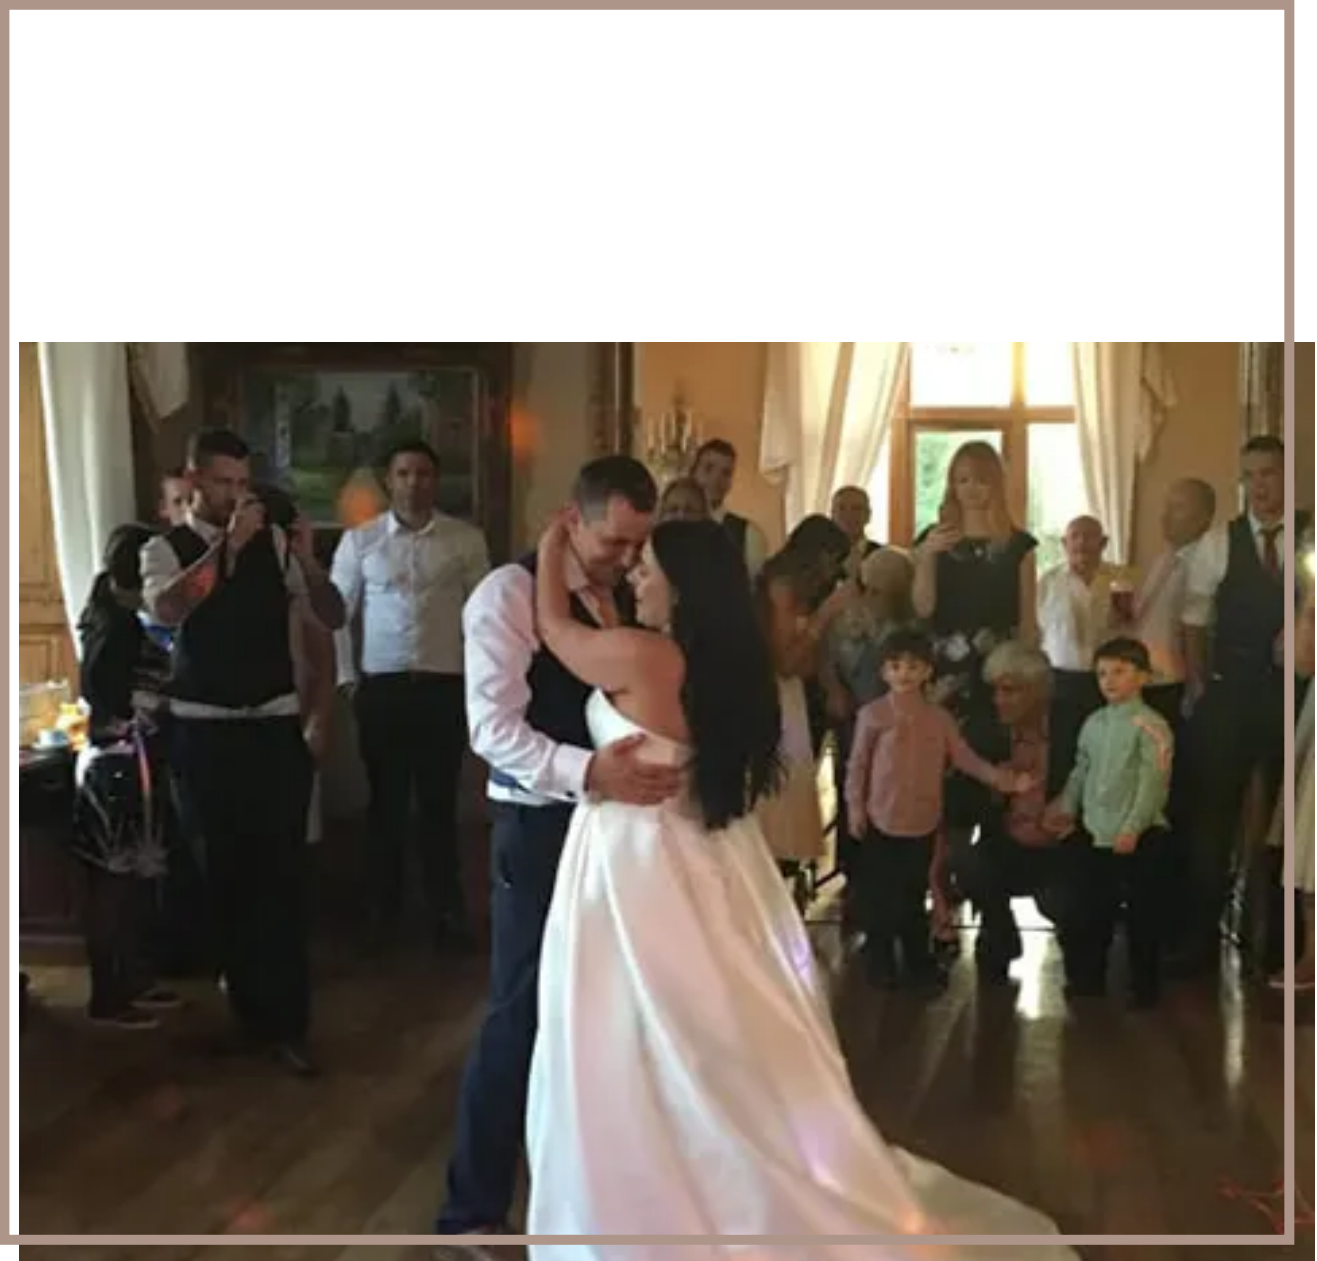

Your wedding will have a great quality RCF sound system and computer controlled modern lighting provided as standard. Requests are of course welcome, and you can even create a playlist if you want to have more control over the music.

My main services include wedding DJ hire, wedding breakfast music and ceremony music. I also have a range of optional services including interactive quizzes, music bingo, karaoke, and effects machines to add a wow factor to your entertainment.

All my equipment is PAT tested and I am public liability insured.

Testimonials

What they're saying about us

We booked Nick to provide our Wedding Reception disco. Our wedding had to be postponed twice due to covid but this was no problem for Nick. We were able to pick songs that we wanted played, as..
